Projects

PROPERTY LEASING WEBSITE | [WEBSITE LINK](#)

The website was designed and coded using HTML, CSS, JavaScript, and Bootstrap. The website includes a variety of features, such as the following:

- On the listing page, you can add and delete properties.
- Filling out the query form.
- Included a perfect responsive design to cater to smaller, small, and large phone screens.

THE DAILY NEWS APP | [WEBSITE LINK](#)

The app was created using data from a news API, and ReactJs and Bootstrap were used for styling. The website includes the following features:

- It includes news from a variety of categories.
- A design that translates well to various devices (such as desktops, smartphones, and tablets)

WEATHER APP | [WEBSITE LINK](#)

The app uses weather data provided by a well-known API. The project is developed with the help of the ReactJs framework. Below are some features that the web app has:

- Can find weather information in different states and countries.
- Dynamic background will allow you to better understand the weather.
- The app has been optimized for both desktops and mobile devices
